

LIFE EXPECTANCY

STEEL WINDOWS & DOORS

Clement steel windows and doors are manufactured from the highest quality hot rolled recycled steel to ISO 9001. They are strong and robust. With regular maintenance the anticipated life expectancy generally exceeds the industry norm.

Life expectancies for the product and component parts:

Galvanised steel windows and doors	50 years +
Polyester Powder Coating (non-aggressive environment)	20 years+
Silicone Sealant	20 years +
Glazing Gaskets	15 years +
Weatherseals	15 years +
Insulating glass units (warranted for 5 years)	10 years +

Operating & Maintenance Manuals are available from Clement Steel Windows by request.
